Message

Governor Cooper,

I would like to express my sincere hope that you do not agree to North Carolinas participation in the Atlantic Coast Pipeline. While I understand the voters that support it are worried about jobs and energy sources, I'd like to think that North Carolinians are smart enough to recognize that there are other options for energy that would bring jobs to our state. Please take consideration for our beautiful coast line, and the fragile ecosystem and marine life that supports our shores when faced with this decision. Thank you for your time.

Accrina Grandin
